B.Tech – Information Technology 2023 – 2027 (*Expected*)
- **Delhi Public School, Ghaziabad** CBSE
Class XII – 93.4% 2022
- **Delhi Public School, Ghaziabad** CBSE
Class X – 94.8% 2020

EXPERIENCE AND LEADERSHIP

- **AI Product Intern, Scapia** May 2026 – Present
 - Architecting an LLM-powered knowledge base with semantic search and vector retrieval for domain signal tracking.
 - Exploring agentic reasoning workflows to move beyond static retrieval toward adaptive knowledge systems.
 - Designing pipelines that structure continuously evolving external signals into compounding, queryable knowledge.
- **Mentee, PwC AC India Advisory Launchpad (Cyber Security)** Mar 2026 – Present
 - Selected among top candidates nationwide for PwC's advisory program in cybersecurity and risk management.
- **Co-Founder, GeeksforGeeks Student Chapter, MIT Manipal** Aug 2025 – Present
 - Co-founded the GFG Student Chapter at MIT Manipal, driving technical initiatives for 300+ students through workshops, contests, and structured project management.
- **Executive, E-Cell MIT Manipal** Oct 2024 – Present
 - Conceptualized flagship events “Bid & Build” and “CaseMaze” for MES '24-'25, engaging 1000+ participants from 50+ colleges.

PROJECTS

- **Caliber – AI Powered Fitness Coach (React.js, Node.js, PostgreSQL, Gemini API):**
 - Built an AI fitness app with RAG-based persistent memory for personalized training, cutting redundant data entry by 50%.
 - Integrated vision-based macro logging, enabling users to photograph meals and auto-extract nutritional data.
 - Improved AI response relevance by 25% via domain-specific prompt engineering and iterative feedback loops.
- **ReVault – Encrypted Marketplace (React, Redux, WebCrypto API, AES-256-GCM, SHA-256):**
 - Engineered a secure marketplace for encrypted digital asset transfers using AES-256-GCM with RSA-OAEP key wrapping.
 - Implemented SHA-256 integrity verification and RSA-PSS digital signatures for end-to-end transaction security.
 - Built an administrative audit dashboard for compliance monitoring and real-time security event tracking.
- **Nudgr – Habit Coaching Platform (React, Node.js, Express, Auth.js, OpenAI API, Tailwind CSS):**
 - Developed a SaaS habit coaching platform using AI-generated nudges and gamification to build positive user behaviors.
 - Integrated the OpenAI API to deliver context-aware nudges and behavioral recommendations based on user progress.

SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, SQL, ARM Assembly, LPC1768 (with C)
- **Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, Context API, Tailwind CSS, Responsive UI
- **Back-End:** Node.js, Express.js, REST APIs, MongoDB, PostgreSQL
- **Tools:** GIT, Jupyter Notebook, Wireshark, Cisco Packet Tracer, Keil µVision

COMPETITIVE PROGRAMMING

- **DSA Practice:** Solved 400+ DSA problems on GeeksforGeeks, LeetCode, and Codeforces focusing on arrays, trees, graphs, DP, and problem solving efficiency.

CERTIFICATIONS

- **Microsoft Azure AI Fundamentals (AI-900) – Training (Udemy):** Validated understanding of AI workloads, machine learning principles, and Azure AI services.
- **Microsoft Azure AI Essentials: Workloads and Machine Learning on Azure:** Demonstrated knowledge of implementing and managing AI workloads using Azure tools and services.

ACHIEVEMENTS & INTERESTS

- Smart India Hackathon (SIH) 2025 : among top teams at the regional level for the project *Monaestry 360*.
- Led school football team in multiple state/regional tournaments including SSPF Inter-State & CBSE Clusters.
- Top 5% in International Science Olympiad (SOF).
